

# Nana Addo Dankwa Bampoe Addo

## Software Engineer

Passau, Germany | +49 176 7490 9252 | nanaaddoldoe@gmail.com | GitHub: [github.com/NanaAddoDBa](https://github.com/NanaAddoDBa)

## PROFESSIONAL SUMMARY

Software Engineer with experience building and maintaining web applications, API-connected workflows, and database-backed features using React, Next.js, TypeScript, JavaScript, Node.js, and SQL. Comfortable working across frontend implementation, backend/API support, testing, debugging, technical documentation, and maintainable internal tooling. Currently deepening knowledge in QA engineering, test automation, workflow automation, and AI-supported software workflows.

## SKILLS

**PROGRAMMING LANGUAGES:** Python | JavaScript | TypeScript | Java | SQL | HTML/CSS

**FRONTEND:** React | Next.js | Responsive UI Development | Tailwind CSS | API-connected interfaces

**BACKEND & API:** Node.js | Express.js | REST APIs | API integration | Webhooks

**DATABASES & DATA:** PostgreSQL | MongoDB | MySQL | Structured data handling

**TESTING & QA:** Cypress | Playwright | Jest | Test support | Debugging

**AUTOMATION & TOOLS:** Git | GitHub | Jira | Docker | CI/CD basics | n8n | Microsoft Power Automate | Technical documentation | AI-assisted tools | LLM-supported workflows

## TECHNICAL UPSKILLING

**Ongoing online coursework** in QA engineering, test automation, IT automation engineering, Microsoft Power Automate, n8n, machine learning with Python, and AI engineering.

**Growing practical familiarity** with workflow automation, Power Automate flows, triggers, actions, approvals, HTTP-based flows, n8n workflows, API integrations, webhooks, data transformation, tool integrations, debugging, documentation, and versioning basics.

**Deepening knowledge** of AI automations, LLM-supported workflows, RAG concepts, vector database concepts, Python for machine learning, scikit-learn basics, classification and prediction basics, NLP, and AI fundamentals

## LANGUAGE SKILLS

**Twi:** C2

**English:** C2

**German:** B1

## PROFESSIONAL EXPERIENCE

### Software Developer (Remote)

Everything Beaded | Accra, Ghana | 03.2022 - 11.2025

- Developed and maintained e-commerce platform features using React, TypeScript, JavaScript, Node.js, and API-connected workflows.
- Supported product, checkout, and content workflows by connecting frontend behavior with backend/API responses and structured data handling.
- Worked on performance and reliability improvements across UI behavior, data retrieval, and database-backed flows through testing and debugging.

- Added test and validation support with Cypress, Jest, and Playwright where suitable, combining automated checks with practical manual QA support.
- Prepared technical notes and implementation documentation to make maintenance, handover, and stakeholder discussions easier.

#### **IT Specialist (Internship)**

Food and Drug Authority | Accra, Ghana | 02.2020 - 12.2021

- Built and maintained internal tools that improved workflow efficiency for regulatory processes and reduced reliance on manual steps.
- Supported authentication and access-control features to protect sensitive operational data.
- Worked with data-oriented workflows that supported verification, reporting, and operational accountability.
- Tested, troubleshooted, and documented internal software workflows while collaborating with technical team members and operational users.

## EDUCATION

**MASTER OF COMPUTER SCIENCE** | University of Passau, Passau, Germany | 04.2023 - expected 03.2027

**BACHELOR OF COMPUTER SCIENCE** | Christian Service University, Kumasi, Ghana | 08.2015 - 06.2019

## CERTIFICATIONS

Software Development | Advanced Diploma | IPMC, Ghana

Database Administration | Advanced Diploma | IPMC, Ghana

Modern JavaScript From The Beginning 2.0 | Udemy

React - The Complete Guide (incl. Next.js, Redux) | Udemy

Cypress: Web Automation Testing from Zero to Hero | Udemy

## PROJECTS

#### **Regulatory Compliance Platform | Food and Drug Authority Ghana**

Internal web tool that digitized manual verification and audit workflows, supported structured data capture, and improved validation and reporting workflows for regulated entities.

#### **Expense Tracker & Budget Manager | Personal Project**

<https://github.com/NanaAddoDBa/Mobile-expence-tracker>

Mobile-focused expense tracking project for recording, organizing, and reviewing spending data, with emphasis on clear data entry, retrieval, and budget visibility.

#### **African-Made Marketplace | Web Application Project**

Marketplace project focused on product discovery, listings, and customer purchase workflows for African-made products, with practical attention to responsive UI, API integration, and maintainable implementation.
